***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 22 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 22 recites that the control member is "eye-operated". It is unclear what an "eye-operated" control member would be and how it would work.

***Drawings***

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the expandable bladder and the eye-operated control member must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Art Unit: 3761

### ***Claim Objections***

Claims 54,90-93,106 and 107 are objected to because of the following informalities: In claims 54 and 106, "said feedback" should be "said feedback means". In claims 90-93, "feedback member" should be "feedback means". In claim 107, "actuator" should be "actuator means". Appropriate correction is required.

### ***Allowable Subject Matter***

Claims 9-16,19,36-53,55-89 and 94-105 are allowed.

### ***Response to Arguments***

Applicant's arguments with respect to the rejected claims have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***
